

Dear ISSCC Community,

First of all, thank you all for the strong support to ISSCC, especially in the current challenging environment. We just went through our Oct paper selection process, virtually, and we are very happy to report, with strong submissions, we have put together an outstanding technical program together with an excellent set of educational programs. We are confident to bring you a high-quality conference as you all expect from ISSCC.

After a careful review of the current CoVID-19 situation and close consultation with IEEE, ISSCC executive committee has just decided to hold ISSCC 2021 in a full virtual format. The detailed program information shall be published soon. Given the environment we have been in, we have anticipated and prepared the virtual conference for quite some times, with the strong team efforts, Please be aware of possible deadlines/deliverables changes for the virtual conference with all of you and with all the authors/speakers.

Details how to prepare such deliverables, including platforms we use will be also announced in short. we believe that we will deliver the virtual conference with rich and reward experience.

Best Wishes,

Makoto Ikeda
2021 ISSCC Technical Program Chair

Kevin Zhang
2021 ISSCC Conference Chair
